

**February 22<sup>nd</sup> to 24<sup>th</sup>, 2018**  
**Bombay Exhibition Centre, Mumbai, India**

**TWO MEGA EVENTS**

**ONE PLATFORM**

Explore the great collaboration  
between Gear and Grinding Technology.

**HIGHLIGHTS:**

- Network with leading brands from the Gears, Power Transmission & Grinding Industry
- Meet face-2-face with end-users, potential buyers and industry leaders
- Explore new business tie-ups and joint ventures
- Attend technical seminars on Modern Technology Trends for Gears | Heat Treatment | Grinding
- Witness state-of-the-art products, technologies and services from Indian & International players

# POST SHOW REPORT

## 5th IPTEX 2018 & 3rd GRINDEX 2018

### 5th IPTEX- 3RD GRINDEX EXPO concludes on a positive note

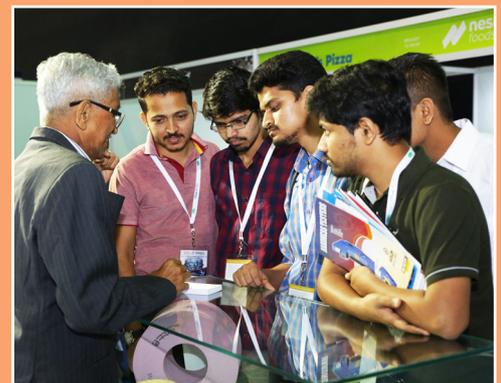

The 5th IPTEX-International Power Transmission Expo and 3rd GRINDEX-International expo on Grinding and Finishing Process 2018, the two consecutive exhibition were held in Mumbai, India from February 22 to 24, 2018 at BEC-Bombay Exhibition Centre. These dedicated expos unveiled an assemblage of latest products and services displaying most comprehensive emerging technology, latest innovation and developments with best practices from the engineering, machine tools, and the Grinding industry.

With over 90 exhibitors from 9 countries, the gear and grinding exhibition attracted over 3500 visitors from various industries such as auto component, automobiles, capital goods, defence, aerospace and railways. the event attracted impressive number of delegates and visitors from the Tier I , Tier II and Tier III cities such as Pune, Nashik, Aurangabad, Satara besides visitors from the neighbouring states of Gujarat, Karnataka, Tamilnadu, Telangana, New Delhi and others.

Expressing his views over the success of the event, Mr. Matt Croson President of AGMA- American Gear Manufacturers Association said, AGMA'S First International Course held in India on "The Steels for Gear Application" had a Fantastic response and "We are happy to share that the expo, the fifth in IPTEX- and the third GRINDEX in the series, was a success. The exhibitors were happy to note that the show managed to attract visitors from smaller manufacturing hubs from northern and western region. This further gives impetus to our idea that the niche machine tool segment are the way forward to address the requirements of the Original Equipment Manufacturers, as well as component manufacturers in the Tier I , Tier II and Tier III cities."

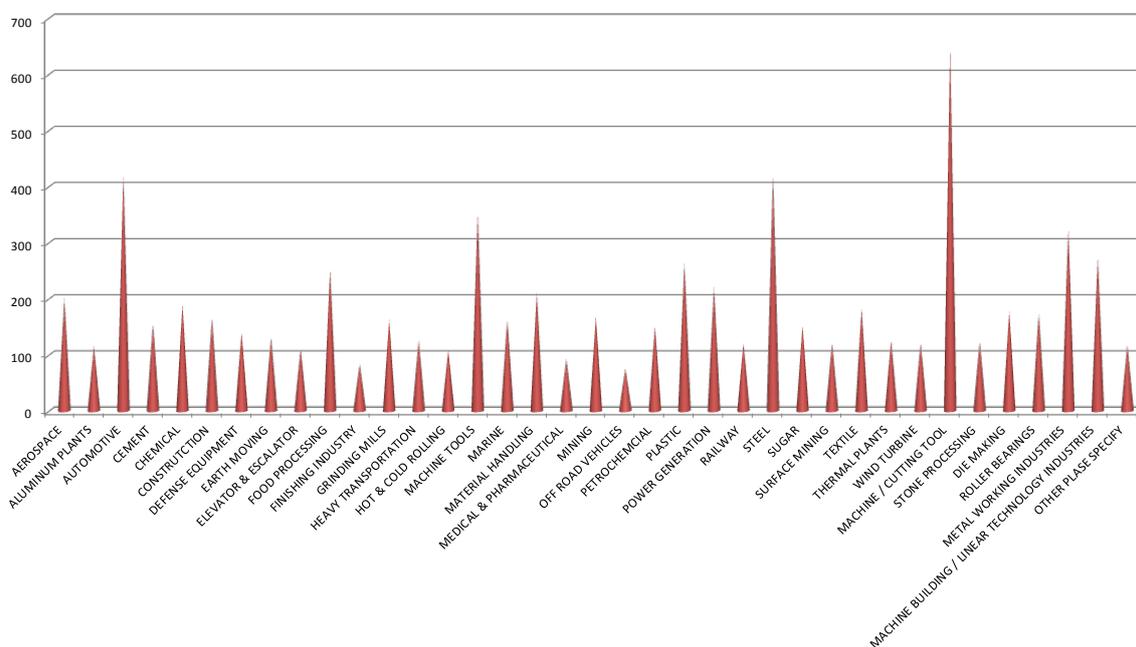

The Expo turned out to be fruitful both for the visitors as well as the exhibitors, and most of the exhibitors were satisfied with the quality of the crowd and the business opportunities that the exhibition provided them.

Continuing with the idea, the next edition of IPTEX-GRINDEX Exhibition will be held in Pune in 2020.
